

ABOUT THE CLUB

The Club is on land originally owned by H.P. (Percy) Brazier on which there were tennis courts. Percy was a major benefactor to the town of Worthing. As well as bowls, he was also an accomplished sportsman in six different sports.

The tennis courts were converted into two magnificent "Cumberland Turf" greens in 1947. These were open for play on 1st May 1948 but were officially opened on 4th May 1949 when a match was played against a rink from each of six Associations. They were the EBA, Sussex County B.A., Dennyside B.A., Banks B.A., London and Southern Counties B.A. and Worthing Town Council.

Percy represented Sussex on many occasions and played for England on no less than twenty occasions. The Club facilities subsequently passed to the Members with Percy Brazier as its President.

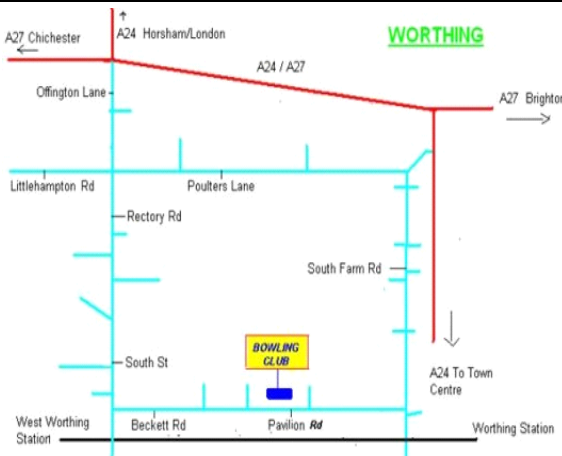

Three indoor rinks were built in 1962, enabling the Members to bowl all the year round. Unfortunately, these were burnt down in 1964 and were re-opened after rebuilding in 1966. In 1997, with the aid of Lottery funding, an additional three rinks were built on a spare plot of land to the west of the outdoor greens. At the same time, alterations were made to accommodate wheelchair access.

Air conditioning and a high standard of lighting were installed on all indoor rinks during the summer of 2005.

A new dining room was added in the winter of 2008 that now houses the clubs trophy cabinet.

ABOUT LAWN BOWLS PLAYING AREA:

A bowling green is normally square. It is surrounded by a shallow ditch.

The perimeter of the ditch is surrounded by a bank. The green is normally divided into six "rinks" allowing six games to take place concurrently. We have two bowling greens allowing twelve games to take place concurrently.

Surface wear is spread by moving the rink settings laterally and by changing direction of play during the day playing either north-south or east-west. As indicated on the board at the front of the greens
